**CLENERGEN CORPORATION AND NATIONAL POWER CORPORATION FORM ALTERNATIVE ENERGY TRAINING
INSTITUTE IT'S GLOBAL PROJECTS**

Clenergen Corporation (OTC-BB: CRGE) announced today that the Philippine National Power Corporation (NPC) is forging the establishment of a Joint Alternative Energy Training Institute dedicated to provide Clenergen with the required expertise to facilitate the training of local workers in the establishment of its biomass and related power systems in Africa and the Asia Pacific Basin.

Under a Memorandum of Agreement (MOA) signed June 9, 2010 in Manila, Clenergen plans to utilize the highly skilled and experienced human assets of NPC initially to support its global drive to install and operate medium sized biomass power-plants in the 1 – 50MW/e range.

The Institute is aimed at producing a sustainable source of highly skilled manpower on a global scale to support biomass-based projects, including agronomy expertise. The initial seat of the Institute is in the Philippines with NPC as hosting entity.

The main focus of the training infrastructure application is in Africa where Clenergen is preparing to build and operate plants. More projects are also in the “pipeline” for the Philippines, and India.

The Philippines is currently the showcase for island power plants with the NPC.

Mark Quinn said, this MOA is designed to match Clenergen’s increasing need for an increase in skilled and competent manpower to help train the local people to deliver on its energy projects on a much shorter horizon”

NPC president Tampinco said “NPC was formed in 1936 and has all the trained personnel that can meet the global requirements of Clenergen and is open to forging the required corporate vehicle to the required training resources to their projects”.

About Clenergen Corporation

Clenergen Corporation is a publicly-listed company with its common stock quoted on the OTC-BB (Symbol: CRGE). Clenergen offers strategic clean energy generation and sustainable fuel supply projects to address the requirement for

PRESS RELEASE

renewable and sustainable source of power. Clenergen has developed a unique supply of fuel for use with gasification, combustion steam, Pyrolysis oil and pelleting technologies.

Clenergen Corporation intends to use proprietary and mixed biomass feedstock to implement sustainable supplies of **clean energy** for regional, captive end users, remote islands, and mining companies and, through government- or privately-owned power grid systems, other end users, including private homes. Offering a turnkey solution using proven technology and agronomy, Clenergen intends to have installed over 500MW/e of power generation facilities by 2014, along with the export of wood pellets and liquid fuels to the industrialized markets of North America, Europe and Asia. .

Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). To the extent that any statements made in this press release contain information that is not historical, these statements are essentially forward-looking. Forward-looking statements can be identified by the use of words such as "expect," "plan," "will," "may," "anticipate," "believe," "should," "intend," "estimate," and variations of such words. Forward-looking statements are subject to risks and uncertainties that cannot be predicted or quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, without limitation, those risks and uncertainties contained in this press release and those identified in the periodic reports that the company files with the Securities and Exchange Commission (the "SEC") pursuant to the Exchange Act.

Readers of this press release should carefully consider such risks, uncertainties and other information, disclosures and discussions which contain cautionary statements identifying important factors that could cause the company's actual results to differ materially from those provided in forward-looking statements. Readers should not place undue reliance on forward-looking statements contained in this or other press releases or in any periodic report that Clenergen Corporation files with the SEC. Clenergen Corporation does not undertake any obligation to publicly update or revise any forward-looking statements it has made in this press release or may make in other press releases or periodic reports filed with the SEC or elsewhere, whether as a result of new information, future events or otherwise.
